**Subject:** Request for Extension to Dispute: CDF Performance Standards  
**Date:** 03/30/2010 08:30 AM

---

Chip and Eric:

As we discussed yesterday, the current deadline for the LWG to notify EPA of a dispute related to the directed comments we received on CDF performance standards is this Friday, April 2nd. The LWG requests a two week extension to this deadline (i.e., April 16th). This extension will provide the LWG time to consider EPA's clarifications on these issues, as expressed in recent meetings.

Thank you for considering this request, and please provide a written response. If you have any questions please call me. Jim.
